

1. Read the predictions and write the names.

Which kid thinks that...

a) there will be robots around us?

b) people will live on different planets?

c) people need to be careful about their city?

d) people will have completely different homes?

2. Read the text again and match the questions to the kids' answers. Write names.

a) Do you think are we alone in this universe?

b) What will life in New York be like in the future?

c) What do you think life will be like in the future?
