

1. How many steps are there to do it yourself? Write them all down.

.....

.....

.....

.....

2. Write T (true) or F (false) next to each statement.

- a) Doing things yourself can save you money. ☐
- b) Watching videos on YouTube is one way to learn about your project. ☐
- c) You will need to gather your tools before learning about how to do your project. ☐
- d) You won't ever run into problems if you read about it beforehand. ☐
- e) It's better to start big and move down to small projects later. ☐

3. Go online and find a small DIY project you can do. List all the steps and necessary supplies. Share it with your class.
