

1. Read the text. Put the words below next to their definitions.

a) Condensation

b) Precipitation

c) Evaporation

d) Water cycle

2. Read the text again. Draw the water cycle. Write a caption under each step to explain the water cycle. Use the words in the box. Do not use the sentences from the text.

water vapour

evaporate

condense

snow or rain

3. Read the text again. Find one sentence for cause and one sentence for effect.

Cause (Why something happens)

Effect (What happens as result)

Example: The sun warms water in rivers.

Water transforms into vapour.
